BULLETIN! 09/11/2008

Contact: Blaine Warzecha

Phone: 361-573-2428

Victoria Electric Cooperative requests that you broadcast this information as soon as possible. Your assistance is needed in order to communicate this important situation. Thank you for your prompt attention.

In an effort to protect the public from harm and to protect the cooperative equipment which will aid in increasing the restoration efforts after Hurricane Ike passes, Victoria Electric Cooperative will be de-energizing substations providing electricity to coastal areas where mandatory evacuation orders have been made.

The timing of these outages will depend on the severity of the storm surge and wind speeds realized in these areas.

Cooperative members can visit the VEC website at www.victoriaelectric.coop or call the VEC information hotline at 361-582-5555 for information during the restoration process.
